

Zizia aurea

Common Name: Golden Alexanders

An important food source for Eastern Swallowtail butterfly caterpillars. Brilliant golden flowers decorate this late-spring bloomer. Growing only one to two feet tall, this is an excellent choice for heavy clay soils in semi=shade to full sun.

Plant Details:

Zizia aurea

Soil Type: Dry Mesic, Mesic, Moist

Exposure: Full Sun, Partial Shade

Bloom Period: Spring

General Information:

-Mature Height: 1 Feet

-Mature Width: 2 Feet

-Flower Color: Yellow

-Fall Color: N/A

-Bark Description: No Data
